TERRA - COTTA
ROOFING TILES

ISSUED FREE BY WUNDERLICH LIMITED, MANUFACTURERS,
IN THE INTERESTS OF BETTER HOUSING

The Colourful Beauty of Terra-Cotta Tiles

Wherever homes are built, those that attract, that possess colour character and distinctiveness are roofed with WUNDERLICH Terra-Cotta Tiles. For Terra-Cotta Tiles, as a roof covering possess a charm impossible to obtain with any other roofing material. Furthermore they are ideal for roofing houses erected throughout Tasmania, as they form an effective insulator against heat and cold, are self ventilating and condensation free for between the laps are ample openings for the free movement of air. Exposure to the atmosphere will simply mellow the rich colouring of the burnt clay, as the years go by. Above all, Wunderlich Terra-Cotta Tiles afford permanent fire safe protection, are not a luxury and are made in Tasmania at our Launceston Tileworks to cater for Tasmanian Homebuilders' requirements.

We quote to supply and fix tile roofing throughout Tasmania.

For further information concerning Wunderlich Products mentioned throughout this booklet, call at, 'phone or write to our showrooms and offices — addresses below.

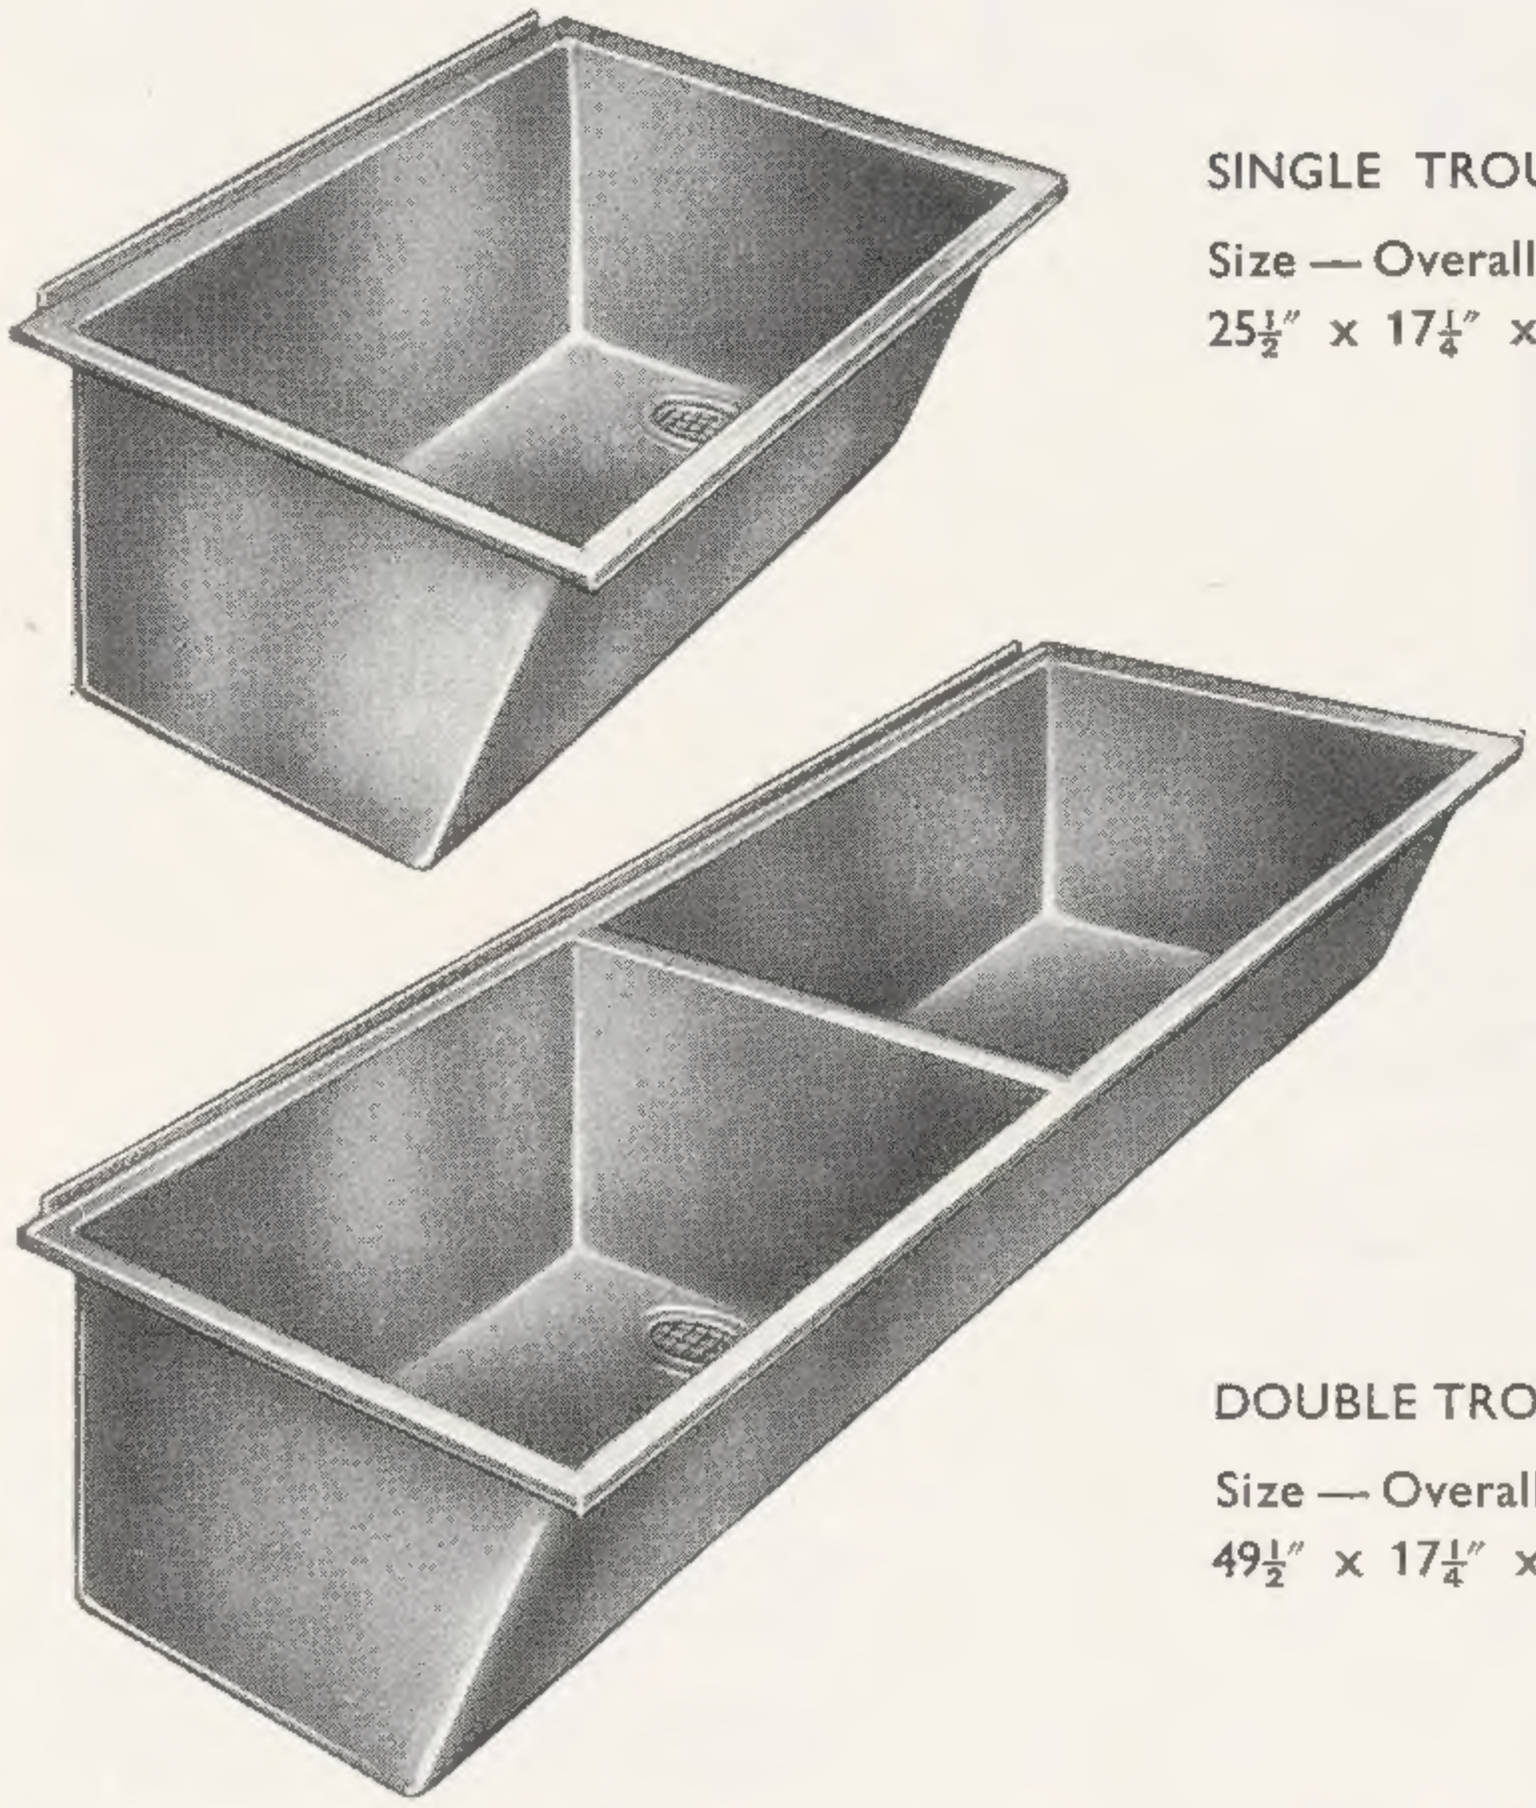
LUXURY IN THE LAUNDRY
At Surprisingly Low Cost

SINGLE TROUGH UNIT.

Size — Overall :
25½″ x 17¼″ x 10¾″ deep.



DOUBLE TROUGH UNIT.

Size — Overall :
49½″ x 17¼″ x 10¾″ deep.

Wunderlich Stainless Steel Wash Trough Units are made with a 7/8″ flange around all sides for installation on a timber supporting frame. A ½″ flashing is turned up along the back of each unit. The centre division of the double trough unit (9/16″ wide) is reinforced to permit attachment of a wringer. The troughs, finished satin smooth to prevent injury to the daintiest garments, afford years and years of trouble free service.

Ask your local Hardware Merchant or write to Wunderlich Limited for prices.
